THE BALLOT—OUR WEAPON.

Back in the beginning of recorded history at that era in human development when mankind first undertook to record the events of their age, the tollers of the world were slaves. All labor was slave labor, and through the weary centuries of time they toiled and struggled, suffered and died; here advanced a step and there being driven back by their self-appointed masters; scourged, beaten, bruised, they still struggled onward to the full attainment of free and enlightened manhood. Whatever industrial freedom they have attained has been the fruits of united action, through their guilds or labor organizations. Through this course they have shortened the hours of toil, have forced a larger measure of all that makes life a better and sweeter thing, whatever legislation has been enacted to benefit the weak, to protect womanhood and childhood in the factories and the mines, has been wholly due to the influence of organized labor on public opinion and the fears of politicians.

The industrial field is being rapidly organized, but capital is keeping pace in the gigantic combines and trusts, and the ring of the almighty dollar in our halls of legislation drowns the cry for justice and humanity; corporate wealth controls all legislation, both state and national, corporate wealth controls the dominant political parties, while the tollers with the ballot of the freemen in their hands—the weapon which controls the destiny of this nation—is being tricked, traduced, intimidated or conjoined into keeping in political power the men and the measures they are fighting in the industrial field, until today we are confronted with two alternatives, corporate and predatory wealth must be driven from power or the rights of labor will be obliterated. The "Patch decision" is but an echo to the "Hitt sale," the "blanket injunction" is but another name for "cardroom," and the "shipping bill" but another name for the "press gang," and all the hideous atrocities that surround that name. Seeing the illegal combination of wealth bidding defiance to our government, feeling their desire and power to destroy us, organized labor armed with the ballot has entered the political field, from the Atlantic shores to the Golden Gate; they have thrown down the gauntlet of battle which will never cease till equal justice and special privileges to none shall dominate our halls of legislation and our courts of justice. We are but a small firing squad but let us do our duty, the eyes of the whole movement observe us. Then let us stand shoulder to shoulder the time for personal preference being past and the time for united action here. And united labor having accomplished so much for the betterment of the tollers in the industrial field, will have struck its first blow for emancipation in the political field in our city.

WOODBURY.

Under the present system Woodbury received from the State in 1905 \$580.90 for schools more than it paid to the State. Clement would abolish this system. This town now sends a representative to Montpelier. Clement calls this a "rotten borough system," and would have Woodbury lose its identity in the legislature and become part of a "legislative district." In 1900 Senator Clement prevailed on increased tax on corporations and fathered the last State tax law levied in Vermont. This saved Mr. Clement's railroad \$28,199.34 in 1901. It cost Woodbury \$399.63. Vote for your town's interest next Tuesday.—Adv.

Just received, new line of postals of local views in colors, O. J. Dodge.

Insect Powder That Kills

If you want satisfying Insect Powder you must purchase the kind made from the half opened buds of a species of chamomile grown in Dalmatia. This powder is stronger and of greater killing power than any other. The brand we handle is that kind and we know it to be reliable. We have just received a new lot right from the importers. It costs you no more than other insect powders and being stronger it goes much farther. 5c oz.; 15c 1-4 lb.; 25c 1-2 lb.
